

Instruction: Where can I send a message to someone? *You should reference components and locations in the UI.*

Answer: To send a message, you need to access the messaging app. The key components on the home screen are the app icons. Specifically, you should look for the <ref type="box" coords={"x1": 262, "y1": 766, "x2": 360, "y2": 814} note="message app icon">message app icon</ref>located at the bottom left of the screen. This icon is typically used to open the messaging app. Once you tap on this icon, you will be taken to the messaging app where you can send a message.
